

MORE GRIT THAN AN ANGRY BADGER!

We set out to create a trench box that was light weight, durable, and tough as nails. Something that would be interchangeable with boxes we sold in the past, but would also allow us to take customer feedback and make changes to improve the product.

Having been in the trench safety industry for 20 years, we know every job site is different and provides a variety of challenges. Badger Box's light weight design makes it the perfect trench box to be transported to the job site by any size pickup truck and set in place with a mini excavator. This trench box is a must have for any plumber, municipality, power or gas company.

We are a small, family owned and operated business, and we are very proud to say Badger Box is 100 % made in America.

INTRODUCING THE BADGER BOX

YOU ASKED FOR IT, WE DELIVERED

Your Challenge

 "The stacking kits fall through into the box when removing the pins, creating a huge pain for the guys in the field. Can you fix this?"

 "The feet on the legs are too narrow and just sink into the mud. Can you make them bigger?"

 "Attaching the sling to the collars is not very user friendly. Can you put a D ring somewhere?"

Our Solution

 No slip stack kits

 Leg kits with a 5x5 foot pad providing 4X the ground coverage

 Lifting brackets (Pro Series Only)

At Allen Trench Safety we believe it is our job to keep you safe in the trenches, but we can never forget those who have kept us safe at home. Their sacrifices have allowed us the opportunity to chase the American dream.

May we never forget to honor and celebrate those who have given us this great gift. We proudly support the Wounded Warrior Project.
